Testing round 2: read this first

Print: this page once. The consent form (page 2) **one per person**. The tenant task cards (page 3) once for the observer. The tenant observation sheet (page 4) **one per tenant**. The prospect page (page 5) **one per prospective tenant**. Page 6 is the list of what to send back.

Who

- **5 to 7 tenants** who were *not* among the three on 30 September. Mix them: different units and clusters, someone who pays cash, someone less used to apps, Android and iPhone.
- **1 or 2 prospective tenants**: people who do not live there (a friend, a student looking for a room).
- **Nobody from the team** tests or answers the survey.

Tester codes: continue from round 1

Tenants are **T4, T5, T6 …** (T1 to T3 were used on 30 September). Prospects are **PR2, PR3**. Use the code on every sheet, never the name. Only the consent form carries the name.

Each session, in this order

1. **Consent form first.** Signed before anything else. Fill in *Research team member present* yourself.
2. Show the same short Hivelet video as on 30 September.
3. Read each task card aloud (English, then Filipino). Write start time, end time, success, wrong taps, and what they say.
4. **Help only when they are stuck**, and write the level: 1 = a prompt ("what would you try?"), 2 = a hint where to look, 3 = shown how.
5. **The survey straight away**, on the **same Google Form as 30 September** (do not make a new one). Show the QR, step away while they answer.

Rules

- **The system is live.** A test repair request has a title starting **TEST**. Inquiries write **TEST** in the message.
- **Nobody completes a GCash payment.** Open it, look, close it.
- Nobody types a password for someone else or photographs a password or slip.
- At most **two inquiries from the same wifi in 15 minutes**, then use mobile data.
- Tenants on their first sign-in need their **sign-in slip from the landlady** (login ID and temporary password). Ask her for the slips beforehand.
- Photos or screen recordings **only if the consent form says yes**. Write what happened, not what should have happened.

> Run all of them by about **8 November**, so the paper can be updated and sent to the adviser before the defense.

Form 1. Informed consent / Pahintulot na may Kaalaman

Hivelet: A Web-Based Apartment Management System for Fe Galang Da Silva Boarding House
Group 4, BS Information Technology, Bicol University College of Science
Adviser: _____

What this is. We are testing the Hivelet system with the people who will use it: the landlady, the tenants, and people looking for a room at the Fe Galang Da Silva Boarding House. You will watch a short video about Hivelet, then use the system (on your own phone where possible) for about 10 to 30 minutes while a member of our team watches and takes notes. Then you answer a short anonymous survey. We are testing the system, not you.

Sinusubukan namin ang sistemang Hivelet kasama ang mga gagamit nito: ang landlady, ang mga nangungupahan, at ang mga naghahanap ng kwarto. Manonood kayo ng maikling video tungkol sa Hivelet, at gagamitin ninyo ang sistema (sa sarili ninyong cellphone kung maaari) nang mga 10 hanggang 30 minuto habang nagmamasid at nagsusulat ang isang miyembro ng aming grupo. Pagkatapos ay sasagot kayo ng maikling survey na walang pangalan. Ang sistema ang sinusubukan namin, hindi kayo.

What we record. Notes on what you do, what you say, and how long it takes; with your permission, a recording of your screen and photos of the session. In our notes you are a code (for example T4), never your name. Your survey answers are anonymous.

Your privacy (Data Privacy Act of 2012, RA 10173). Tenants use their own account, which shows only their own unit, bills, payments and requests. People looking for a room use only the public website and need no account; an inquiry you send reaches the landlady like any real inquiry. Anything we use in our paper has names, phone numbers and amounts hidden. Recordings and notes are kept by the research team only and deleted after the defense. Taking part is voluntary. You may stop at any time, and it has no effect at all on your tenancy or on any future application for a room.

Kusang-loob po ang paglahok. Maaari kayong tumigil anumang oras, at wala itong epekto sa inyong pag-upa o sa anumang pag-aaplay ninyo ng kwarto.

Please tick / *Pakitsek*:

☐ I agree to take part in the test. / *Pumapayag akong lumahok.*
☐ I agree to my phone screen being recorded. / *Pumapayag akong i-record ang screen ng aking cellphone.*
☐ I agree to photos of the session being taken. / *Pumapayag akong kunan ng litrato ang session.*
☐ My face may appear in the paper. / *Maaaring makita ang aking mukha sa papel.* (If not ticked, faces are blurred or cropped.)

I am / *Ako ay*: ☐ a tenant / *nangungupahan* ☐ looking for a room / *naghahanap ng kwarto*

Name / *Pangalan*: _____ Unit (tenants only): _____

Signature / *Lagda*: _____ Date: _____ November 2026

Research team member present: _____ Tester code: _____

Tenant task cards (read aloud: English, then Filipino)

On the tenant's own phone, at hivelet.vercel.app. "Should happen" is for the observer only; do not read it out.

Case	Read aloud	Should happen
T-01	"Sign in with the slip the landlady gave you." *Mag-sign in po gamit ang slip na ibinigay ng landlady.*	Asked to choose a new password straight away
T-02	"Choose your own password." *Gumawa po ng sariling password.*	Rules shown (10+ characters, a letter, a number); a weak one is refused with a reason; they confirm their phone number; a good one lands on Overview
T-03	"Which unit is yours and how much is the rent?" *Anong unit ninyo at magkano ang upa?*	Their correct unit and rate
T-04	"Do you owe anything right now?" *May utang po ba kayo ngayon?*	The answer is clear on screen and matches what they believe
T-05	"Find your payments this year." *Hanapin po ang mga bayad ninyo ngayong taon.*	Their receipts in Payments and billing. **Ask if the list is right** and write the answer
T-06	"How is your bill made up?" *Paano po nabuo ang bill ninyo?*	Rent and water (₱200 per occupant) visible
T-07	"Find where to report something broken." *Hanapin po kung saan magre-report ng sira.*	Finds Repairs
T-08	"Report it, and say how urgent it is." *I-report po at sabihin kung gaano kaapurahan.* (a real problem, or a title starting TEST)	Says it was sent to the landlady; appears in their list
T-09	"Add a photo of it." *Maglagay po ng litrato.*	Photo attached, even a large phone photo
T-10	"Add a note to your request." *Magdagdag po ng mensahe sa request.*	Note appears in the thread
T-11	"What is its status now?" *Ano po ang status nito?*	Status visible (Submitted, In progress or Done)
T-12	"Check your contact details and fix anything wrong." *Tingnan po ang contact details ninyo.*	My details: phone saved, or nothing to change. No email is asked for
T-13	"Do you have any notifications?" *May notification po ba kayo?*	Bell opens; marking one read lowers the count
T-14	"Open the GCash payment, but **do not pay**. Close it." *Buksan po ang GCash pero huwag magbayad. Isara.*	GCash option appears; closing it changes nothing
T-15	"Type /admin at the end of the address." *I-type po ang /admin sa dulo ng address.*	Not allowed in; sent back to their own pages
T-16	"Sign out, then press Back." *Mag-sign out po, tapos pindutin ang Back.*	No personal data shown after sign-out
T-17	"Sign in again with your **new** password." *Mag-sign in po ulit gamit ang bagong password.*	Works; the slip password no longer works
T-18	"Was anything confusing?" *May nakalito po ba?*	Write their words exactly

A tenant who already chose their own password skips T-01, T-02 and T-17: write **NT** and why. Then the survey, the tenant section of the form.

Form 2. Observation sheet: tenant (one per tenant)

Tester code: _____ Unit: _____ Phone and browser: _____
Network: wifi / mobile data Observer: _____ Date: _____ Nov 2026 Video shown at: _____

Success: P = done alone (help 0 or 1), PH = done with help (level 2), F = not done (level 3, gave up, or wrong result), NT = not tried. **Errors:** wrong taps that led somewhere unintended. **Help:** level 1, 2 or 3, and when.

Case	Start	End	Success	Errors	Help (level, when)	What they said or did

Survey answered at: _____ Overall impression, in their own words:

_____

_____

Prospective tenant: task cards and observation sheet (one per person)

Tester code: _____ Phone and browser: _____ Network: wifi / mobile data
Observer: _____ Date: _____ Nov 2026

No account, no sign-in, their own phone, at hivelet.vercel.app. Read each card aloud; "Should happen" is for the observer.

Case	Read aloud	Should happen	Start	End	Success	Help / what they said
PR-01	"You are looking for a room near Bicol University. Open this website and tell me what the place is." *Naghahanap po kayo ng kwarto malapit sa Bicol University. Buksan ang website at sabihin kung ano ang lugar na ito.*	Understands it is a boarding house with 33 units				
PR-02	"What kinds of units do they have?" *Anong mga uri ng unit ang mayroon sila?*	Finds Studio, One-bedroom, Two-bedroom, Three-bedroom				
PR-03	"Find how much a studio unit costs per month." *Hanapin kung magkano ang upa sa isang studio kada buwan.*	Opens Studio; reads a rate (₱5,000 to ₱8,500)				
PR-04	"Is any unit available right now?" *May bakante po bang unit ngayon?*	Finds the unit status. Today every unit shows Occupied				
PR-05	"Pick one unit and find which floor it is on and how many people can stay." *Pumili ng isang unit at hanapin kung anong palapag ito at ilang tao ang puwede.*	Opens a unit's details; the floor plan shows				
PR-06	"How is water charged?" *Paano sinisingil ang tubig?*	Finds ₱200 per occupant a month				
PR-07	"Find where the boarding house is and how to contact them." *Hanapin kung saan ang boarding house at paano sila kokontakin.*	Finds the location and the contact number				
PR-08	"Ask the landlady about a unit you like. Use your own name and number, and write 'TEST' in the message." *Magtanong sa landlady tungkol sa unit na gusto ninyo. Gamitin ang sariling pangalan at numero, at isulat ang 'TEST' sa mensahe.*	Asks only name, phone and question. Says the inquiry is sent, with a reference code and a link				
PR-09	"Was anything slow, confusing or missing?" *May mabagal, nakakalito, o kulang po ba?*	Write their words exactly (NT)			NT	

Then the survey, the prospective tenant section of the form.

Survey answered at: _____ Overall impression:

_____

What to send Claude afterwards

	What	How
☐	**The survey responses**	Google Forms > Responses > green Sheets icon > File > Download > CSV. Send the file as downloaded; do not edit or sort it. It contains round 1 too, which is fine
☐	**A photo of every observation sheet** (pages 4 and 5)	Flat, in good light, the whole sheet readable
☐	**A photo of every signed consent form**	These stay private and are never committed. Check *Research team member present* is filled in
☐	**The prospective tenant's consent form from 30 September**	Still missing. Find it, or have that person sign one now
☐	**Any problems found**	A sentence each: what they tried, what went wrong, on which phone
☐	**The adviser's OK** for a second round	One line saying it was approved, and the date

With these, Claude recomputes every number (each group's mean, the eight composites, the overall mean, the task success rates and times) and updates Chapter 3, Chapter 4, the abstract, Chapter 5, the slides and the study guides.
