2. How to Use This Checklist

This checklist walks your group through every requirement after your system and manuscript are complete, from securing your advisers' endorsements up to turning over the hardbound copies. Work through the six phases in order. A phase starts only after the Faculty-in-Charge (FIC) has initialed the checkpoint of the phase before it.

Each task tells you which form to use, who checks or signs it, and where to write the date it was done. The form templates are posted on BU-LMS under the form numbers listed in Section 4. Fill in every placeholder in square brackets before printing a form, and use the same title and the same spelling of your names on every form.

Keep all signed originals together in one folder, in the order of the form numbers. Scan or photocopy each signed form before you hand it over to anyone. Blanks marked with a line, such as "____ working days", are set by the FIC and announced on BU-LMS.
